EXPERT'S NAME:

Impact and sustainability	4. Quality of the financing strategy and feasibility potential of the project	.../10	<ul style="list-style-type: none"> • Awareness of the suitable potential partners and territories targeted, especially from countries with a different language • Sufficiency and realism of the financing plan • Adequacy of the production costs to the project and to the development budget • Adequacy of the financing strategy compared to the estimated production costs • Level of commitment (letter of intent versus deal-memo or contract) and share of non-national funding

TOTAL

Please fill in the total of points given for each criteria:

Criteria	Definition	Max. Points	Expert
1.Relevance and European added-value	Quality of the project and the potential for European distribution	55	
2. Quality of the content and activities	Quality of the development strategy	10	
3. Dissemination of project results	Quality of the European and international distribution and marketing strategy	25	
4. Impact and sustainability	Quality of the financing strategy and feasibility of the project	10	
Total		100 Points	

Automatic Points

Is it a coproduction with a country which has signed the European Convention on Cinematographic Co-production, and is a deal memo or contract attached to the application? Yes / No

Is it a film targeting first and foremost a young audience (below 16 years)? Yes / No

As an indication, would you recommend the rejection or the selection of the project? (Mark with an "X" the appropriate answer; please note that only projects with a minimum of 70/100 points may be recommended for selection)

Recommendation for selection	<input type="checkbox"/>
Recommendation for rejection	<input type="checkbox"/>

If you recommend the selection:

Amount of support recommended by the expert (in CHF) The support recommended by the expert cannot be higher than the support requested by the applicant company. A reduced amount must be justified on the basis of the budget (please indicate which items you consider overestimated).	CHF ...
--	---------

Reasons for recommendations (REQUIRED): please give us roughly **seven positive and/or negative arguments** which support the selection or rejection. These arguments should be in a form that can be given to the applicants as a justification of the decision. In a rejection obviously the negative arguments should prevail, but you may (and should) as well give positive aspects.

Points

Within the maximum number of points per award criterion, ranges of scores are defined that correspond to a fixed definition of the expected quality standard so that as coherent approach as possible is implemented, across experts as well as across schemes. The score cannot include decimals. The standards are as follows:

- 9-10 Very good – the application addresses all relevant aspects of the criterion in question convincingly and successfully. The answer provides all the information and evidence needed and there are no concerns or areas of weakness.
- 7-8 Good – the application addresses the criterion well, although some small improvements could be made. The answer gives clear information on all or nearly all of the evidence needed.
- 5-6 Acceptable – the application broadly addresses the criterion, but there are some weaknesses. The answer gives some relevant information, but there are areas where detail is lacking or the information is unclear.
- 3-4 Fair – the application addresses the criterion, but there are many weaknesses. The answer gives some relevant information, but there are several areas where detail is lacking or the information is unclear.
- 1-2 Very weak – the application fails to address the criterion or cannot be judged due to missing or incomplete information. The answer does not address the question asked, or gives very little relevant information.
- 0 No evidence – the application fails to include a minimum amount of evidence to enable the criterion to be evaluated.

N.B. Although indicated on the scoring scale, experts should avoid "0" which relates to "no evidence". For obvious particular cases, experts should contact MEDIA Desk Suisse à priori.

N.B.2. Some criteria are to be rated on a scale of 15 points or 25 points. In those cases, you may find useful to use the standard scale and then multiply the score by the corresponding factor, further refine to the next whole number (if applicable). For example: 8/10 points in the standard scale corresponds to 12/15 (factor: x1.5) or 20/25 (factor: x2.5).

N.B.3 As a horizontal criterion, please evaluate – if applicable – the strategies to ensure a more sustainable and environmentally-respectful industry, gender balance, inclusion, diversity and representativeness, either in the project/content or in the way of managing the activities.
