Automatic Points (please tick the boxes as appropriate)

- ☐ The author or one of the authors is **Swiss (nationality or residency)**? (+5)
- ☐ The film is targeting first and foremost a **young audience** (below 12 years) or is an **animation** film? (+5)

N.B. Bonus points will eventually be allocated only to projects that have reached the 70/100 point threshold.

As an indication, would you recommend the rejection or the selection of the project? (please note that only projects with a minimum of 70/100 points may be recommended for selection)

Recommendation for selection	<input type="checkbox"/>
Recommendation for rejection	<input type="checkbox"/>

If you recommend the selection:

Amount of support recommended by the expert (in CHF) The support recommended by the expert cannot be higher than the support requested by the applicant company. A reduced amount must be justified on the basis of the budget (please indicate which items you consider overestimated).	CHF ...
--	---------

Reasons for recommendations (REQUIRED): please give us roughly **seven positive and/or negative arguments** which support the selection or rejection. These arguments should be in a form that can be given to the applicants as a justification of the decision. In a rejection obviously the negative arguments should prevail, but you may (and should) as well give positive aspects.

Points

Within the maximum number of points per award criterion, ranges of scores are defined that correspond to a fixed definition of the expected quality standard so that as coherent approach as possible is implemented, across experts as well as across schemes. The score cannot include decimals. The standards are as follows:

- 9-10 Very good – the application addresses all relevant aspects of the criterion in question convincingly and successfully. The answer provides all the information and evidence needed and there are no concerns or areas of weakness.
- 7-8 Good – the application addresses the criterion well, although some small improvements could be made. The answer gives clear information on all or nearly all of the evidence needed.
- 5-6 Acceptable – the application broadly addresses the criterion, but there are some weaknesses. The answer gives some relevant information, but there are areas where detail is lacking or the information is unclear.
- 3-4 Fair – the application addresses the criterion, but there are many weaknesses. The answer gives some relevant information, but there are several areas where detail is lacking or the information is unclear.
- 1-2 Very weak – the application fails to address the criterion or cannot be judged due to missing or incomplete information. The answer does not address the question asked, or gives very little relevant information.
- 0 No evidence – the application fails to include a minimum amount of evidence to enable the criterion to be evaluated.

N.B. Although indicated on the scoring scale, experts should avoid "0" which relates to "no evidence". For obvious particular cases, experts should contact the agency staff à priori.

N.B.2. Some criteria are to be rated on a scale of 15 points or 25 points. In those cases, you may find useful to use the standard scale and then multiply the score by the corresponding factor, further refine to the next whole number (if applicable). For example: 8/10 points in the standard scale corresponds to 12/15 (factor: x1.5) or 20/25 (factor: x2.5).
